

## Micro Brew (2020)

Page 1 of 2

### **American Pale Ale**

Initial density:1.046 - 1.050

Final density:1.006 - 1.010

IBU:31            SRM:3

This beer is an IPA reinvented. Aromatic hops such as Citra, Simco, and Cascade are generously used to contribute to the pleasant aroma. It's a pale colored beer.

### **Blonde**

Initial density:1.046 - 1.050

Final density:1.006 - 1.010

IBU:24            SRM:3

This pale and luminous beer has very pleasant fruity flavours reminiscent of citrus and apricot. Surprise your friends and family with this delicious, fresh beer. It appeals to both amateurs and connoisseurs alike.

### **Cascade Blonde**

Initial density:1.047 - 1.052

Final density:1.007 - 1.011

IBU:24.9            SRM:3

This «single hop» has refreshing tones of grapefruit and citrus notes that is an iconic trait to Cascade hops. We also added malted wheat which gives it a roundness and a beautiful creamy head. The Quebec (Beauce Region) Cascade hops gives this beer a character that true lovers will appreciate.

### **I.P.A. India Pale Ale**

Initial density:1.057 - 1.062

Final density:1.008 - 1.012

IBU:65.            SRM:6.8

A copper-colored beer with malt and caramel flavours. When you take a sip, a fresh hop blast slowly fades away and the malt creeps up gently. A refreshing, lingering after taste will appeal to fans of IPA style.

### **Légère – Light**

Initial density:1.032 - 1.036

Final density:1.007 - 1.012

IBU:10            SMR:2

A pale color beer. Easy to drink and refreshing.

### **Northern Brown Ale**

Initial density:1.058 - 1.062

Final density:1.006 - 1.010

IBU:41.2            SRM:19

A beer with hints of caramel, biscuits, and well balanced on the hop side. It is endowed with a beautiful amber color and generous portion of hops.

## Micro Brew (2020)

### **Blanche / White**

Initial density:1.041 - 1.044

Final density:1.000 - 1.010

IBU:10            SRM:2.8

This white pale yellow and slightly veiled is above all thirst quenching. It's flavours are fruity and its bitterness is subtle. A slight acidity adds to its unique character. Typical of the Belgian Wit Beers with curaçao orange and coriander notes. Good in all seasons, it is perfect for summer and patio.

**Ingredients:** Coriander, curaçao orange.

### **White I.P.A.**

Initial density:1.050 - 1.054

Final density:1.008 - 1.012

IBU:45.9            SMR:3.2

This slightly hazy beer is in the White IPA style. Included in the kit, you will find 1 ounce of Columbus Hops for dry hopping. Add it 3 days before bottling. Specific aroma descriptors include black pepper, liquorice, curry and subtle citrus. It should please amateur that enjoy hoppy beers!

### **Weizenbier**

Initial density:1.050 - 1.054

Final density:1.008 - 1.012

IBU:26            SRM:9

The Weizenbier is a white beer with a high bitterness, originally brewed in Bavaria, Germany. The Weizenbier from Micro-Brew is made from 50% barley and 50% wheat, which gives it an amber color. Added to this is a touch of roasted malt, which brings body and complexity. Hops are present in the mouth with a small resinous side, quickly followed by an explosion of grapefruit and flower aromas.

### **Red / Rousse**

Initial density:1.046 - 1.052

Final density:1.008 - 1.012

IBU:32            SRM:14.3

Traditionally English, this beer with a rich red color, offers fruity flavours enhanced by a touch of caramel. The hops used give it an average bitterness well balance with the malty character.

### **Scotch Ale**

Initial density:1.060- 1.067

Final density:1.010- 1.014

IBU:20            SRM:19

The Scotch Ale by Micro-Brew honors the Scottish tradition. Our brewer has studied and brewed with brewers in Scotland. He created a beer that reminds him of the Highlands and the mysterious side of Scotland. Caramel-colored, it is soft and has a peaty and smoky taste with a perceptible mild bitterness . Typically Scottish!

### **Stout**

Initial density:1.052 - 1.058

Final density:1.016 - 1.020

IBU:42            SRM:40

This black ale will let you discover the joys of it's Irish tradition. Its deep black colour as well as its creamy and abundant foam are characteristic of a stout. It has powerful chocolate and coffee flavors. Its bitterness makes it a beer for savvy amateurs.
